

#WE ARE HIRING

Automation Field Expert - Maritime Systems (m/f/x)

Start 01.08.2025 or earlier

Make Your Mark in Maritime Innovation

As a Service Engineer (m/f/x) for our Automation & Control Systems, you ensure that cutting-edge maritime technology runs reliably – on ships, in shipyards, and from our Hamburg office. You keep operations smooth and customers satisfied.

What You'll Do

-  Maintain, repair & troubleshoot electrical systems
-  Support customers remotely from Hamburg
-  Travel across Europe for technical missions
-  Create clear service documentation
-  Contribute to commissioning & sea trials

What You Bring

-  Degree in Electrical Engineering or similar
-  Experience with automation/control systems
-  Strong IT skills & structured mindset
-  Fluent in German & English
-  Flexibility to travel on short notice

Shape the Future of Maritime – with KONGSBERG

Join a global tech leader with **7,000+ employees in 34 countries**, powering over **34,000 vessels worldwide** with cutting-edge navigation, control, and automation systems.

At KONGSBERG Maritime, you'll help drive the **digital and sustainable transformation** of the maritime industry – working with technology that sets new standards. We're rethinking shipping: digital-first, energy-efficient, and future-ready.

Our **Automation & Control division** delivers everything from individual products to fully integrated systems for ships, offshore platforms, and aquaculture. With a broad, innovative portfolio, we've been a market leader for decades – and we're just getting started.
